KORA · GROWTH PLAYBOOK · NOVEMBER 2026

10 influencer scripts, posting rules and pricing to get paying customers

For hiring creators on Instagram and YouTube in India: what they say, how they post, how to stay inside the ASCI rules, and what Kora should charge.

Inside

1. The plan in one page
2. Pricing: what Kora costs to run and what to charge
3. The legal rules for influencer posts in India (ASCI and platforms)
4. Instagram and YouTube posting rules, timing and hashtags
5. How to find, pay and work with influencers on under Rs 25,000 a month
6. The 10 scripts: 6 for business owners, 4 for CAs (Hinglish and English)
7. 30-day posting calendar
8. How to measure what works
9. Before you post: checklist

Prepared from current public sources (listed at the end). Prices and platform rules change: check the linked source before you sign a contract or set a price. This is marketing guidance, not legal or tax advice.

1

The plan in one page

Goal: a business makes its first invoice on Kora within a day of seeing a reel, and pays within 30 days.

CAs are the multiplier: one CA can bring dozens of client businesses. Owners bring volume.

What the market shows

- **Competitors use creators, not studio ads.** Vyapar's Facebook and Instagram promotion features creators talking to camera about leaving pen and paper behind. Copy the format, not the words.
- **Short wins.** Viewers finish short videos far more often (Vidyard data, via Vidico: 65% finish videos under one minute). Aim for 20 to 35 seconds.
- **First 2 to 3 seconds decide it.** Hook with a problem the viewer feels ("Payment kab aayega?"), then show the product solving it, end on the result.
- **One problem per reel.** Thirty seconds is not enough for three features.
- **Micro and nano creators give better value** than one big creator: higher engagement for the money.

The money plan

Month	Spend	What you buy	Target
1	about Rs 25,000	4 nano creator reels (owners) + 1 CA creator reel; Kora's own page posts 3 times a week	Learn which 2 scripts work: hooks with the most saves and link clicks
2	about Rs 25,000	Repeat the 2 winning scripts with new creators; boost the best reel as a partnership ad with what is left	Cost per first invoice falls each week
3	about Rs 25,000	Long-term deals (3 reels each) with the 2 best creators; CA referral offer live	At least 5 new paying businesses a month, so the spend pays back within a year (see pricing)

Do not start before these are true: sign-in works on the live site; real sign-in codes and real WhatsApp sending are connected (several scripts show WhatsApp sending); Razorpay takes real payments; prices are final; the site is on your own domain with real support contact details. A reel that sends people to a broken sign-up wastes the whole fee.

2

Pricing: what Kora costs to run and what to charge

Exchange rate used: US $1 = Rs 88 (assumption; adjust). Prices below are before GST; add 18% GST on the invoice to the customer.

Fixed monthly cost (the "server")

Item	Plan	Per month
Vercel (web app)	Pro, 1 seat: $20 with $20 of usage included	about Rs 1,800
Supabase (database, Mumbai)	Pro: $25, includes a small compute instance	about Rs 2,200
Upstash (rate limits), backups, error reports, domain	free tiers or small usage	about Rs 500 to 1,500
Total fixed		**about Rs 4,500 to 5,500**

At a few hundred active businesses, expect a bigger database instance (about Rs 1,300 more a month) and more Vercel usage. Re-check every quarter.

Cost per paying business per month (usage)

Item	Assumption	Cost
WhatsApp invoices and reminders	120 utility messages (60 invoices + 60 reminders). Meta charges Rs 0.115 per utility message in India; provider fee about Rs 0.10 to 0.20 on top	Rs 26 to 38
Sign-in codes by SMS	10 a month at MSG91's Rs 0.20 to 0.25 + 18% GST	about Rs 3
Payment collection (Razorpay)	about 2% + GST on the fee; check your contract	about Rs 12 on Rs 499
PDFs, storage, database rows	small	Rs 2 to 5
Total per paying business		**about Rs 45 to 60**

What competitors charge (public pages, November 2026)

Product	Price
Zoho Invoice	Free
Vyapar	Free mobile plan; paid plans yearly (one comparison quotes the Gold plan at Rs 8,599 a year)
myBillBook	About Rs 291 to Rs 570 a month when billed yearly (Rs 3,490 to Rs 3,990 a year on its comparison page)
Zoho Practice (for CA firms)	$49 to $149 per firm per month (about Rs 4,300 to Rs 13,100)

Recommendation

Plan	Price	Why
Starter	Free (10 documents a month, no WhatsApp)	Zoho Invoice and Vyapar have free plans; a free door is needed. WhatsApp is the real cost, so it stays paid.
Business	**Rs 499 a month, or Rs 4,999 a year** (2 months free)	Above myBillBook's yearly rate, justified by the paid features: WhatsApp sending, scheduled reminders and recurring invoices. Yearly brings cash in upfront. Include up to 500 WhatsApp messages a month (a customer who uses all 500 costs about Rs 150, still profitable); beyond that Rs 0.50 each. The message cap and add-on are not built yet.
Firm (CA practices and larger teams)	**Raise to Rs 2,499 a month, or Rs 24,999 a year**	Still well under Zoho Practice. CAs value the client screen, requests and review; one CA plan pays more than five shops.

The numbers that matter. Each Business customer leaves about Rs 440 a month after usage costs and fees (499 − 12 − about 47). Fixed costs of about Rs 5,500 are covered by **13 paying businesses**. If a customer stays 12 months they are worth about Rs 5,300, so a Rs 25,000 monthly influencer budget needs **at least 5 new paying businesses a month** to pay back within a year. Track this every month.

Change prices in one place: PLANS in packages/core/src/plans.ts; the pricing page and checks follow. Prices are placeholders until you decide.

3

The legal rules for influencer posts in India

ASCI (Advertising Standards Council of India) Influencer Guidelines, updated April 2025. Both Kora and the influencer are responsible.

Rule	What it means for Kora
Disclose any "material connection"	Money, a free plan, a discount or any perk counts. A creator using Kora free in return for a post must still disclose.
Label clearly: #ad, Ad, Advertisement, Sponsored, Collaboration or Partnership	Put it at the start of the caption. Not in the bio, not after "more", not hidden among hashtags.
Label on the video itself	Videos up to 15 s: label on screen at least 3 s. 15 s to 2 min: on screen for one third of the length (a 30 s reel needs it for 10 s). 2 min or longer: for the whole section that promotes Kora.
Platform label too	Instagram "Paid partnership" and YouTube "Includes paid promotion" are required by the platforms and should be used in addition to the creator's own label.
Same language as the content	A Hinglish reel needs a label Hinglish viewers understand ("Ad", "Paid partnership").
Advice needs qualifications	Financial or tax advice must come from a qualified person (for example a CA) who states the qualification upfront. Creators without one may only share general product information, such as "this is how I make my bill".
No false or unprovable claims	No made-up customer numbers, ratings or savings, and no "files your GST return" (Kora does not file returns).
AI or virtual presenters	Must say upfront that they are not a real person.

That is why scripts 7 to 10 are for CA creators only. They give GST guidance, so the creator must be a practising CA and show it ("CA [Name] · ICAI member") on screen and in the caption. Owner scripts 1 to 6 contain no tax advice: they show the product.

Put these in every creator contract

- Deliverables (format, length, number of drafts), posting date and time, and both labels as above.
- Kora approves the final cut before posting; you can ask for edits or removal if a rule is broken.
- Usage rights: Kora may run the reel as a partnership ad for 60 days (agree the fee).
- No other invoicing-app promotion for 30 days before and after (optional, costs more).
- Payment terms (50% on approval, 50% after it is live for 7 days), tracking link and code.
- Only claims from the brief; the creator actually uses the app on camera.

4

Instagram and YouTube posting rules, timing and hashtags

Instagram Reels

- 9:16, 1080 × 1920. Reels can run up to 3 minutes; keep to 20–35 s.
- Hook in the first 1–2 seconds; captions on; original video, no other app's watermark.
- **At most 5 hashtags** (Instagram's 2026 cap); 3–5 specific ones. Avoid #reels, #explore.
- Say the keywords out loud and on screen ("GST bill", "invoice", "UPI"); Instagram reads both.
- **Collab post**: creator invites @kora as co-author, so it appears on both profiles.
- **Paid partnership label** required for branded content; add Kora as partner.
- **Partnership ads**: with the creator's permission, boost their reel from Kora's ad account.
- **Trial Reels**: test a hook on non-followers before posting to everyone.
- Music: a business account should use Meta Sound Collection (cleared for commercial use in Reels, Stories and ads), not popular film songs.

YouTube Shorts

- 9:16, up to 3 minutes; best results usually 15–35 s.
- 2–4 relevant hashtags (the first ones show above the title).
- Tick **"Includes paid promotion"**: YouTube adds a disclosure label at the start.
- Put the link in the pinned comment and the description.
- YouTube Audio Library music is fine on YouTube, but it is licensed for YouTube only, not for Instagram.
- Shorts run on their own recommendation system; most views come in the first 24–36 hours.

When to post (India time, IST)

Where	Best slots	Source
Instagram Reels for owners	Wednesday and Thursday, 6–9 PM (evening viewing is strongest, 6–11 PM)	Buffer, 9.6 million posts (2026)
Instagram for CAs (work audience)	Thursday 9 AM, Wednesday 12 PM; Tuesday to Thursday	Buffer overall best times
YouTube Shorts	Friday 4–7 PM; other days 7–9 PM	Buffer, 1.8 million videos
Weak days	Friday and Saturday for Instagram	Buffer

These are global averages in the viewer's local time; after 3 weeks use your own Instagram Insights ("When your followers are most active").

Calendar timing that fits GST work

- **Days 1 to 10 of each month**: CAs are chasing client data before the GSTR-1 date (the 11th for monthly filers). Post CA scripts 7 and 8 then.
- **Month end and days 1 to 5**: owners are chasing payments and billing. Post scripts 1, 4 and 6.
- **Festive season and year end (February to March)**: billing peaks; post scripts 2, 3 and 5.

Hashtag sets (pick up to 5)

#GSTBilling #GSTInvoice #SmallBusinessIndia #BillingApp #UPIPayments #DukaanDaar #MSMEIndia #Kora

#CharteredAccountant #CAIndia #GSTReturn #GSTR1 #TaxProfessional #Kora

5

How to find, pay and work with influencers on under Rs 25,000 a month

Typical Indian rates (2026)

Tier	Followers	One Instagram reel	Use for Kora
Nano	1,000–10,000	about Rs 3,000–8,000	Shop owners, local business vloggers, small CA creators. Your main tier.
Micro	10,000–100,000	about Rs 15,000–60,000	One CA or business-tips creator a month once a script is proven.
Mid-tier and above	100,000+	Rs 80,000+	Not yet.

Source: JigsawKraft India influencer cost guide 2026. Finance and SaaS niches charge at the top of each range.

A Rs 25,000 month

What	Cost
3 nano owner creators × 1 reel (scripts 1, 2, 4)	Rs 15,000
1 nano CA creator × 1 reel (script 7)	Rs 6,000
Boost the best reel as a partnership ad for 7 days	Rs 4,000
Every creator also gets Kora Business free for a year (disclose it)	your cost about Rs 50 a month each

Where to find them

- Search Instagram and YouTube for "GST bill kaise banaye", "dukaan business tips", "CA life", "small business India"; note creators whose comments come from real shop owners and CAs.
- Ask CAs you know who they follow; ask existing users.
- Before paying, ask for last month's Insights: reach per reel, audience cities, ages, and the share of followers in India. Engagement on recent reels matters more than follower count.

Ways to pay

- **Fixed fee per reel** (most common), 50% on approval and 50% after 7 days live.
- **Fee + referral**: a lower fee plus a payment for every business that becomes paying with their code (for example Rs 300 each). Good for CA creators.
- **Barter only** (free plan): fine for nano creators who really use it; still needs the #ad label.

The process, step by step

1. Send the brief: the script page from this PDF, the do-not-say list, the labels, the link and code.
2. The creator signs up, makes a real invoice on camera, and films in their own style; the script is a guide, not a reading.
3. You approve the draft within 24 hours; check the labels and claims.
4. They post as a Collab with @kora and the Paid partnership label at the agreed time.
5. Kora reposts to Stories, pins a comment with the link, replies to every comment in the first hour.
6. After 7 days: compare views, saves, link clicks, sign-ups, first invoices and paid plans per creator.

Do not let creators say

- "Kora files your GST return" or "no CA needed".
- Any number of users, ratings or "lakhs of businesses".
- "Free forever, everything free" (WhatsApp sending is paid).
- Anything about a feature they did not actually use on camera.

6

The 10 scripts

Each script is 25–35 seconds, 9:16. Every one has the same parts: a hook in the first 2 seconds, one problem, the product on the creator's own phone, one result, one action. Creators should say it in their own words; the lines are a guide.

#	Title	For	Format	Creator
1	Udhaar wala customer	Owners	Skit	Shop or trader creator
2	30-second bill challenge	Owners	Timer challenge	Any business creator
3	Dukaan ka ek din	Owners	Day-in-the-life vlog	Shop owner who vlogs
4	Reminder jo khud jaata hai	Owners, freelancers	Before / after	Freelancer or service business
5	Bill apni bhasha mein	Shops	Demo	Regional shop creator (Hindi, Marathi or Gujarati)
6	Excel aur Tally se shift, 5 minute	Owners switching	Tutorial	Business-tips creator
7	10 tareekh ka tension	CAs	Relatable skit	Practising CA
8	Clients ke bills WhatsApp photos mein	CAs	Problem / solution	Practising CA
9	3 invoice galtiyan jo GSTR-1 bigaadti hain	CAs and their clients	Educational	Practising CA (states qualification)
10	Mera CA aur main: mahina kaise band karte hain	CAs and owners	Collab of two creators	A CA and one of their clients

Every script, every time: "Paid partnership with Kora" or "#ad" on screen for the first third (10 s on a 30 s reel); the platform label switched on; caption starts with the disclosure; the link in bio and pinned comment; the creator's code (for example KORA-RAHUL).

Scripts 1, 2, 3 and 10 show WhatsApp sending. Post them only after real WhatsApp delivery is connected on the live site.

SCRIPT 1 · OWNERS

Udhaar wala customer

Goal	Owners who chase payments sign up and send a first invoice with a UPI QR.
Why it works	Late payment is a daily pain for Indian shops; a short skit with a familiar character gets shares. The product shows the result (QR scanned, paid) instead of listing features.
Creator	Shop owner or trader creator, nano tier. Two people (the owner, the customer), or one person playing both.
Post	Instagram: Wednesday or Thursday 7–9 PM, last days of the month. Shorts: Friday 4–7 PM.

Time	On screen	Hinglish	English
0–3 s	Customer walking away; text: "Kal de dunga 😅"	"Bhaiya, payment kal kar dunga." (owner looks at camera, tired)	"I'll pay you tomorrow, bhaiya." (owner looks at camera, tired)
3–7 s	Notebook full of crossed-out names	"Ye 'kal' teen mahine se chal raha hai."	"That 'tomorrow' has lasted three months."
7–16 s	Owner makes the bill in Kora on his phone	"Ab main Kora pe bill banata hoon. GST khud lagta hai, aur bill pe UPI ka QR aata hai."	"Now I make the bill on Kora. GST is added by itself, and the bill carries a UPI QR."
16–22 s	Sends on WhatsApp; customer's phone buzzes	"Seedha WhatsApp pe bheja."	"Sent straight on WhatsApp."
22–28 s	Customer scans the QR, pays; owner smiles	"Scan kiya, pay kiya. Kal ka chakkar khatam."	"Scan, pay. No more 'tomorrow'."
28–32 s	Kora logo, "Free mein shuru karein · link in bio"	"Kora free mein try karo, link bio mein."	"Try Kora free, link in bio."

Caption

Hinglish: Paid partnership with Kora. "Kal de dunga" sun sun ke thak gaye? Ab bill ke saath UPI QR jaata hai, seedha WhatsApp pe. Free mein shuru karo, link bio mein. Code: [CREATOR CODE]

English: Paid partnership with Kora. Tired of "I'll pay tomorrow"? Now every bill goes with a UPI QR, straight on WhatsApp. Start free, link in bio. Code: [CREATOR CODE]

#ad **#SmallBusinessIndia** **#GSTBilling** **#UPIPayments** **#DukaanDaar**

YouTube title: "Udhaar ka ilaaj: bill ke saath UPI QR #Shorts" · Description starts with "Includes paid promotion: Kora."

SCRIPT 2 · OWNERS

30-second bill challenge

Goal	Prove that making a GST bill is fast; drive sign-ups from people still billing on paper.
Why it works	A visible timer is a pattern interrupt and makes people watch to the end (watch time is the main ranking signal). It is a real demo, so it builds trust.
Creator	Any business creator; filmed at their counter with the phone clearly visible.
Post	Instagram: Thursday 6–9 PM. Shorts: Friday 4–7 PM. Festive season and year-end are strongest.

Time	On screen	Hinglish	English
0–2 s	Big timer "00:30", creator holding phone	"Tees second mein GST bill. Challenge?"	"A GST bill in thirty seconds. Challenge?"
2–20 s	Timer running; screen recording picture-in-picture	"Customer chuna… item, rate… GST khud lag gaya… total ready."	"Pick the customer… item, rate… GST added by itself… total ready."
20–25 s	Timer stops at about 0:22; "Issue" tapped; invoice number appears	"Bill number bhi apne aap. Ho gaya!"	"Even the bill number is automatic. Done!"
25–29 s	WhatsApp sent	"Aur customer ko WhatsApp pe chala gaya."	"And it's gone to the customer on WhatsApp."
29–33 s	"Aapka time kitna? Comment karo"	"Aap try karo, apna time comment karo. Link bio mein."	"Try it and comment your time. Link in bio."

Honesty rule: the time on screen must be the real time of that take. The first bill needs a minute to add the customer; film after the business is set up.

Caption

Hinglish: #ad Paid partnership with Kora. 30 second mein GST bill, number aur GST apne aap. Aapka record kya hai? Comment karo. Free mein try karo, link bio mein.

English: #ad Paid partnership with Kora. A GST bill in 30 seconds, with the number and GST done for you. What's your time? Comment below. Try free, link in bio.

#ad **#GSTInvoice** **#BillingApp** **#SmallBusinessIndia** **#Kora**

SCRIPT 3 · OWNERS

Dukaan ka ek din

Goal	Show Kora fitting into a normal working day: trust from people like the viewer.
Why it works	Day-in-the-life content from a real shop feels like a recommendation, not an ad. The same creator-led style competitors use.
Creator	A shop owner who already vlogs their business (electrical, hardware, garments, pharmacy).
Post	Instagram: Wednesday 6–9 PM or Sunday 8–10 PM. Shorts: Saturday 7 PM.

Time	On screen	Hinglish	English
0–3 s	Shutter opening at 9 AM	"9 baje dukaan khuli, aur pehla customer bill maang raha hai."	"Shop opens at 9, and the first customer wants a bill."
3–10 s	Billing at the counter on the phone	"Pehle register mein likhta tha. Ab phone pe bill, GST ke saath."	"I used to write in a register. Now the bill is on my phone, with GST."
10–17 s	Lunch; WhatsApp sent to a regular customer	"Regular customer ka bill WhatsApp pe, QR ke saath."	"A regular customer gets the bill on WhatsApp, with a QR."
17–24 s	Evening: dashboard showing who has not paid	"Shaam ko dekh leta hoon kiska payment baaki hai."	"In the evening I check whose payment is still due."
24–30 s	Shutter closing; "Mera CA bhi khush"	"Mahine ke end mein CA ko saaf data. Dukaan band, tension band."	"At month end my CA gets clean data. Shop closed, worries closed."

Caption

Hinglish: Paid partnership with Kora. Meri dukaan ka ek din: register se phone tak. Bill, WhatsApp, UPI aur CA ke liye saaf data, ek app mein. Link bio mein.

English: Paid partnership with Kora. A day at my shop: from the register to my phone. Bills, WhatsApp, UPI and clean data for my CA, in one app. Link in bio.

#ad **#DukaanDaar** **#MSMEIndia** **#GSTBilling** **#DayInMyLife**

SCRIPT 4 · OWNERS AND FREELANCERS

Reminder jo khud jaata hai

Goal	Sell the paid plan's reminders: the feature that pays for itself.
Why it works	Before/after contrast is clear in a few seconds; the awkward phone call is relatable for freelancers and service businesses.
Creator	Freelancer, designer, consultant or service business creator.
Post	Instagram: Tuesday 7 PM or Wednesday 6 PM, month start. Shorts: Friday 6 PM.

Time	On screen	Hinglish	English
0–3 s	"BEFORE" – creator nervously dialling	"Client ko payment yaad dilana… sabse awkward call."	"Reminding a client to pay… the most awkward call."
3–8 s	Fake polite call: "Sir, wo invoice…"	"Sir, wo pichhle mahine ka invoice… haan haan, koi baat nahi…"	"Sir, about last month's invoice… yes, yes, no problem…"
8–18 s	"AFTER" – Kora reminder settings on screen	"Ab Kora mein reminder set hai: due date se pehle aur baad, khud jaata hai."	"Now reminders are set in Kora: before and after the due date, they go by themselves."
18–25 s	Invoice status turns to Paid	"Polite message, payment link ke saath. Aur main kaam pe focus karta hoon."	"A polite message with a payment link. And I focus on my work."
25–30 s	Logo, link	"Awkward calls band karo. Link bio mein."	"Stop the awkward calls. Link in bio."

Caption

Hinglish: #ad Paid partnership with Kora. Payment ke liye phone karna band. Reminder khud jaata hai, payment link ke saath. Link bio mein.

English: #ad Paid partnership with Kora. No more calling clients for payment. Reminders go by themselves, with a payment link. Link in bio.

#ad **#FreelancerIndia** **#InvoiceApp** **#PaymentReminder** **#Kora**

Reminders are part of the paid Business plan. Do not say "free" for this feature.

SCRIPT 5 · SHOPS

Bill apni bhasha mein

Goal	Reach shops in Hindi, Marathi and Gujarati markets; show the counter receipt.
Why it works	Few billing apps lead with the customer's own language; regional creators reach small towns where Kora has room to win.
Creator	Regional shop creator; film one version per language with a local creator.
Post	Instagram: Wednesday 12 PM or 6 PM. Shorts: Friday 4 PM.

Time	On screen	Hinglish	English
0–3 s	Elderly customer squinting at an English bill	"Customer ko angrezi bill samajh nahi aata?"	"Your customer can't read an English bill?"
3–12 s	Creator switches the bill language to Hindi (or Marathi, Gujarati)	"Kora mein bill Hindi, Marathi ya Gujarati mein bhi."	"On Kora the bill can be in Hindi, Marathi or Gujarati too."
12–20 s	Small receipt printing (80 mm) at the counter	"Counter pe chhoti receipt bhi nikal jaati hai."	"It prints a small counter receipt as well."
20–26 s	Customer reads and nods	"Customer khush, hisaab saaf."	"Happy customer, clear accounts."
26–30 s	Logo, link	"Apni bhasha mein bill banao. Link bio mein."	"Bill in your customer's language. Link in bio."

Caption

Hinglish: #ad Paid partnership with Kora. Bill ab Hindi, Marathi aur Gujarati mein bhi. Counter receipt ke saath. Link bio mein.

English: #ad Paid partnership with Kora. Bills in Hindi, Marathi and Gujarati, with a counter receipt. Link in bio.

#ad **#DukaanDaar** **#GSTBilling** **#VocalForLocal** **#SmallBusinessIndia**

Check before filming: the receipt printer the creator owns works with the 80 mm receipt from the browser.

SCRIPT 6 · OWNERS SWITCHING

Excel aur Tally se shift, 5 minute

Goal	Remove the biggest reason not to switch: "all my customers and items are in another system".
Why it works	A tutorial that saves effort gets saved and shared; saves and shares weigh more than likes.
Creator	Business-tips or productivity creator who uses a laptop on camera.
Post	Instagram: Thursday 9 AM or Tuesday 7 PM. YouTube: also post a 3–5 minute full walkthrough, Sunday 10 AM.

Time	On screen	Hinglish	English
0–3 s	A huge Excel sheet scrolling	"500 customers Excel mein hain, naye app pe kaise laoon?"	"500 customers in Excel. How do I move them to a new app?"
3–14 s	Kora import screen: upload the sheet, preview	"Kora mein spreadsheet ya Tally file daalo, pehle preview dikhata hai."	"Drop the spreadsheet or Tally file into Kora; it shows a preview first."
14–22 s	Import done; customer list full	"Customers aur items aa gaye. Purane bill draft ban ke."	"Customers and items are in. Old invoices come in as drafts."
22–28 s	First new invoice	"Ab seedha naya bill."	"Now straight to the next bill."
28–32 s	Logo, link; "Save karo"	"Save kar lo, kaam aayega. Link bio mein."	"Save this, you'll need it. Link in bio."

Caption

Hinglish: Paid partnership with Kora. Excel ya Tally se Kora pe shift: customers, items aur purane bill. Save karo. Link bio mein.

English: Paid partnership with Kora. Moving from Excel or Tally to Kora: customers, items and old invoices. Save this. Link in bio.

#ad #TallyToCloud #GSTBilling #BusinessTips #Kora

Old invoices arrive as drafts, never as issued bills: say "drafts", not "all your old bills ready".

SCRIPT 7 · CAS

10 tareekh ka tension

Goal	CA firms sign up and invite their first clients.
Why it works	Every CA knows the scramble before the GSTR-1 date; a relatable skit from a real CA earns trust from other CAs.
Creator	A practising CA. On screen and in the caption: "CA [Name] · ICAI member".
Post	Instagram: days 1–8 of the month, Tuesday to Thursday 9–11 AM. Also LinkedIn. Shorts: Friday 4 PM.

Time	On screen	Hinglish	English
0–3 s	Calendar circled at 10; phone ringing nonstop	"Har mahine 10 tareekh se pehle yahi haal."	"Same story every month before the 10th."
3–9 s	Montage: "sir kal bhejta hoon", blurry photos	"Client ka data kal aayega… photo dhundhli hai… Excel ka format alag."	"The client's data comes 'tomorrow'… blurry photo… a different Excel format."
9–19 s	Kora firm screen: every client, what is due and waiting	"Ab ek screen pe saare clients: kiska kya due hai, kaam kiske paas atka hai."	"Now all my clients on one screen: what each owes, and who the work is waiting on."
19–26 s	Client gets an upload link; file lands in the inbox	"Client ko upload link bhejo, files seedha mere inbox mein."	"Send the client an upload link; files land straight in my inbox."
26–32 s	CA relaxed; logo	"Is mahine 10 tareekh thodi shaant thi. CA ho? Link bio mein."	"The 10th was calmer this month. Are you a CA? Link in bio."

Caption

Hinglish: #ad Paid partnership with Kora. CA [Name], ICAI member. 10 tareekh se pehle client data ka chakkar? Ek screen pe saare clients, upload link se files. CA firms, link bio mein.

English: #ad Paid partnership with Kora. CA [Name], ICAI member. Chasing client data before the 10th? All clients on one screen, files through upload links. CA firms, link in bio.

#ad #CharteredAccountant #CAIndia #GSTR1 #Kora

SCRIPT 8 · CAS

Clients ke bills WhatsApp photos mein

Goal	Show CAs a clean way to collect documents and review work before filing.
Why it works	Problem/solution in one cut; a specific pain (photos of bills on WhatsApp) beats a general promise.
Creator	A practising CA (qualification on screen).
Post	Instagram: Wednesday 12 PM, days 1–10 of the month. Shorts: Friday 6 PM.

Time	On screen	Hinglish	English
0–3 s	Phone gallery: 300 photos of bills	"Ye mere client ke is mahine ke bills hain. WhatsApp pe."	"These are my client's bills for this month. On WhatsApp."
3–8 s	Zooming into a blurry photo	"Aadha padh nahi sakte, aadha duplicate."	"Half unreadable, half duplicates."
8–18 s	Request sent from Kora; client uploads; files listed per month	"Kora se request bhejo: kya chahiye, kis mahine ka. Client link se upload karta hai."	"Send a request from Kora: what you need, for which month. The client uploads through a link."
18–26 s	Review step, then the filing reference recorded	"Kaam review hota hai, phir filing ka ARN aur acknowledgement ek jagah."	"The work gets reviewed, then the filing's ARN and acknowledgement are kept in one place."
26–31 s	Logo	"Gallery khaali, kaam saaf. CA firms ke liye, link bio mein."	"Empty gallery, clean work. For CA firms, link in bio."

Caption

Hinglish: #ad Paid partnership with Kora. CA [Name], ICAI member. Client ke bills WhatsApp photos se nahi, request aur upload link se. Review ke baad filing ka record ek jagah. Link bio mein.

English: #ad Paid partnership with Kora. CA [Name], ICAI member. Client documents through requests and upload links, not WhatsApp photos. Reviewed work and filing records in one place. Link in bio.

#ad **#CAIndia** **#TaxProfessional** **#GSTReturn** **#Kora**

The filing record is the firm's own note; Kora does not check it with the GST portal. Do not say it does.

SCRIPT 9 · CAS (EDUCATIONAL)

3 invoice galtiyan jo GSTR-1 bigaadti hain

Goal	Earn saves and trust with useful GST education; Kora appears as the tool that checks these mistakes.
Why it works	Educational reels are saved and shared; viewers return to the creator, and the brand rides that trust. Because this is tax guidance, ASCI requires a qualified creator.
Creator	A practising CA; qualification in the first frame.
Post	Instagram: Thursday 9 AM. YouTube: Short on Friday, plus a longer version Sunday 10 AM.

Time	On screen	Hinglish	English
0–3 s	"CA [Name] · ICAI member"; "3 galtiyan"	"Teen invoice galtiyan jo aapke GSTR-1 ko bigaadti hain."	"Three invoice mistakes that spoil your GSTR-1."
3–10 s	1: wrong GSTIN	"Ek: customer ka GSTIN galat. Unka input credit atak jaata hai."	"One: the customer's GSTIN is wrong. Their input credit gets stuck."
10–17 s	2: place of supply	"Do: place of supply galat. CGST-SGST ki jagah IGST lagna chahiye tha."	"Two: wrong place of supply. It should have been IGST, not CGST and SGST."
17–23 s	3: gaps in numbering	"Teen: invoice number mein gap ya repeat."	"Three: gaps or repeats in invoice numbers."
23–31 s	Kora checking a GSTIN and choosing IGST; numbering	"Main clients ko Kora use karwata hoon: GSTIN check, tax ka batwara aur number khud. Apne CA se baat karo, link bio mein."	"I get my clients on Kora: it checks the GSTIN, splits the tax and numbers bills itself. Talk to your CA; link in bio."

Caption

Hinglish: #ad Paid partnership with Kora. CA [Name], ICAI member. GSTR-1 bigaadne wali 3 invoice galtiyan: GSTIN, place of supply, numbering. Save karo. Apni situation ke liye apne CA se confirm karein.

English: #ad Paid partnership with Kora. CA [Name], ICAI member. 3 invoice mistakes that spoil GSTR-1: GSTIN, place of supply, numbering. Save this, and confirm your own case with your CA.

SCRIPT 10 · CA AND OWNER TOGETHER

Mera CA aur main: mahina kaise band karte hain

Goal	Sell the pair: the owner bills on Kora, the CA works from the same data. One post reaches both audiences.
Why it works	A Collab post with two creators (plus @kora) appears on three profiles; Collabs are the strongest organic reach tactic on Instagram in 2026.
Creator	A CA creator and one of their real clients who runs a business. Both disclose.
Post	Instagram Collab: Wednesday 6–8 PM, around the 1st of the month. Shorts: Friday 7 PM.

Time	On screen	Hinglish	English
0–3 s	Split screen: owner and CA	Owner: "Mahine ka end." CA: "Mera sabse busy time."	Owner: "Month end." CA: "My busiest time."
3–10 s	Owner billing in Kora all month	Owner: "Main poore mahine Kora pe bill banata hoon."	Owner: "I make my bills on Kora all month."
10–18 s	CA opens the linked client in Kora	CA: "Aur main wahi data dekhta hoon. Photos ya Excel nahi maangne padte."	CA: "And I see the same data. No asking for photos or Excel."
18–25 s	GSTR-1 data export; review	CA: "GSTR-1 ka data saaf, review karke file main karta hoon."	CA: "The GSTR-1 data is clean; I review it and do the filing."
25–31 s	Both, high five; logo	Owner: "Hum dono ka kaam halka." CA: "Apne CA ko bhi bolo. Link bio mein."	Owner: "Easier for both of us." CA: "Tell your CA too. Link in bio."

Caption

Hinglish: #ad Paid partnership with Kora. CA [Name] (ICAI member) aur unke client [Name]. Owner Kora pe bill banata hai, CA wahi data dekhta hai. Mahina band, bina photos ke. Link bio mein.

English: #ad Paid partnership with Kora. CA [Name] (ICAI member) and their client [Name]. The owner bills on Kora, the CA works from the same data. Month closed, no photos needed. Link in bio.

#ad #SmallBusinessIndia #CAIndia #GSTBilling #Kora

Kora does not file the return: the CA files. The script says so on purpose.

7

30-day posting calendar (example: December)

Day	Creator posts	Kora's own page
Tue 2	Script 7 (CA), 10 AM	Carousel: "5 things every GST invoice must have"
Wed 3	Script 1 (owner), 7 PM	Story: repost both, link sticker
Thu 4	—	Kora reel (the animated demo), 6 PM
Fri 5	Scripts 1 and 7 as Shorts, 4–6 PM	—
Mon 8	—	Carousel: "Tax invoice vs bill of supply vs credit note"
Wed 10	Script 2 (owner), 7 PM	Story poll: "Aapka bill kitne second mein?"
Thu 11	Script 4 (freelancer), 7 PM	—
Fri 12	Shorts of 2 and 4	Review week 1–2 numbers; pick the 2 winning hooks
Wed 17	Boost the best reel as a partnership ad (7 days)	Carousel: "CA ke liye: ek screen pe saare clients"
Thu 18	—	Reel: reply to the best comment question
Wed 24	—	Year-end billing tips carousel
Tue 30	—	Results review; book January creators with the 2 winning scripts

Kora's own page: 3 posts a week (2 carousels, 1 reel) plus Stories on creator days. Reply to every comment within the first hour of a post.

How to measure what works

Step	Measure	Where
Attention	3-second views, average watch time, saves, shares	Instagram Insights / YouTube Studio (ask creators for screenshots after 7 days)
Interest	Link clicks per creator	A separate link per creator, for example [your domain]/?utm_source=instagram&utm_campaign=rahul
Sign-up	Sign-ups with that link or code	Kora admin panel
Activation	First invoice issued within 24 hours	Kora admin panel; the number to push up first
Revenue	Paid plans within 30 days; for CAs, clients linked	Razorpay and the admin panel

Simple rules

- Judge a creator on **first invoices and paid plans**, not likes.
- Keep scripts whose reels get many saves and link clicks; drop hooks that lose viewers in the first 3 seconds.
- Cost per paying business must stay below about Rs 5,000 (see pricing) for the spend to pay back within a year.
- Rebook creators who brought paying businesses; give them a referral fee.

Questions to decide (the plan assumes the answers in brackets)

1. Final prices: Business Rs 499 / Rs 4,999 a year, Firm Rs 2,499? [recommended]
2. Referral fee for creators and CAs per paying business? [Rs 300]
3. Kora's Instagram and YouTube handle and the short domain for links? [needed before the first post]
4. Who approves creator drafts within 24 hours? [the founder]
5. Support e-mail and WhatsApp number to show in captions? [needed]

9

Before you post: checklist

Product (once)

- ☐ Sign-in works on the live site (production database address fixed).
- ☐ Real sign-in codes (MSG91 or similar) and real WhatsApp sending connected; test mode switches removed.
- ☐ Razorpay live; a Rs 1 test payment worked.
- ☐ Final prices set in Kora; terms, refund and privacy pages have real contact details.
- ☐ Own domain live; links with tracking set up.

Every creator post

- ☐ Contract signed: deliverables, date, labels, approval, usage rights, payment.
- ☐ Creator really used Kora on camera; no claims outside the brief.
- ☐ "#ad / Paid partnership with Kora" on screen for the first third of the video.
- ☐ Caption starts with the disclosure; Instagram Paid partnership label on; YouTube "Includes paid promotion" ticked.
- ☐ CA scripts: qualification shown ("CA [Name] · ICAI member").
- ☐ At most 5 hashtags on Instagram, 2–4 on YouTube.
- ☐ Collab invite to @kora accepted; link and code in bio and pinned comment.
- ☐ Music from Meta Sound Collection (Instagram) or YouTube Audio Library (YouTube only).
- ☐ Posted at the planned slot; Kora replies to comments in the first hour.
